WORK EXPERIENCE

January 2022 — Present

Visual and Interaction Designer

Lemon Bird Solutions

- Designed visual components of a website, including layouts, color schemes, typography, and icons to ensure a cohesive and aesthetically pleasing user interface
- Used design tools to create interactive prototypes, allowing the stakeholders to visualize the final product and provide feedback
- Worked closely with web developer to ensure the designs are feasible and properly implemented

June 2021 — December 2021

UX Research and Design Intern

Sixo.One

- Conducted extensive UX research by carrying out surveys and user interviews
- Collected and analyzed data on customer demographics, preferences, needs and habits
- Prepared reports of findings and illustrating data graphically, giving presentations of findings to a client

- Produced low-fidelity wireframes and created high-fidelity prototypes of an app

June 2012 — January 2021

Healthcare Assistant and Telemetry Technician

BJC Healthcare; University of Kansas Medical Center; University Health

- Performed patient care within surgical, telemetry, acute-care, and rehabilitation settings
- Produced recordings of electromotive variations in patient's heart muscle
- Identified and analyzed the abnormal patterns

January 2012 — May 2015

Art and Customer Needs Researcher

Eva Reynolds Fine Arts

- Conducted art history research on famous artists utilizing major museums and libraries across the United States
- Collected and analyzed data on customer demographics, preferences, needs
- Gathered data on competitors and analyzed their methods of marketing and distribution

August 2011 — December 2011

Market Research and Operations Management Intern

Intouch Solutions

- Provided comprehensive research of the biggest competitors in pharmaceutical industry
- Extracted qualitative and quantitative data from targeted market segments
- Designed consumer surveys to collect data
